

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 932

[Doc. No. AMS-FV-14-0002; FV14-932-1 FIR]

Olives Grown in California; Decreased Assessment Rate

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Affirmation of interim rule as final rule.

SUMMARY: The Department of Agriculture (USDA) is adopting, as a final rule, without change, an interim rule that decreased the assessment rate established for the California Olive Committee (Committee) for the 2014 and subsequent fiscal years from \$21.16 to \$15.21 per ton of assessable olives handled. The Committee locally administers the marketing order, which regulates the handling of olives grown in California. Assessments upon olive handlers are used by the Committee to fund reasonable and necessary expenses of the program. The fiscal year began January 1 and ends December 31. The assessment rate will remain in effect indefinitely unless modified, suspended, or terminated.

DATES: Effective [INSERT DATE 1 DAY AFTER THE DATE OF PUBLICATION IN THE FEDERAL REGISTER].

FOR FURTHER INFORMATION CONTACT: Jerry L. Simmons, Marketing Specialist, or Martin Engeler, Regional Director,

California Marketing Field Office, Marketing Order and Agreement Division, Fruit and Vegetable Program, AMS, USDA; Telephone: (559) 487-5901, Fax: (559) 487-5906, or E-mail: Jerry.Simmons@ams.usda.gov or Martin.Engeler@ams.usda.gov.

Small businesses may obtain information on complying with this and other marketing order regulations by viewing a guide at the following website: <http://www.ams.usda.gov/MarketingOrdersSmallBusinessGuide>; or by contacting Jeffrey Smutny, Marketing Order and Agreement Division, Fruit and Vegetable Program, AMS, USDA, 1400 Independence Avenue SW, STOP 0237, Washington, DC 20250-0237; Telephone: (202) 720-2491, Fax: (202) 720-8938, or E-mail: Jeffrey.Smutny@ams.usda.gov.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement No. 148 and Order No. 932, both as amended (7 CFR part 932), regulating the handling of olives grown in California, hereinafter referred to as the "order." The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "Act."

The Department of Agriculture (USDA) is issuing this rule in conformance with Executive Orders 12866, 13563, and 13175.

Under the order, California olive handlers are subject to assessments, which provide funds to administer the order. Assessment rates issued under the order are intended to be applicable to all assessable California olives for the entire fiscal year and continue indefinitely until amended, suspended, or terminated. The Committee's fiscal year began on January 1 and ends on December 31.

In an interim rule published in the **Federal Register** on March 14, 2014, and effective on March 15, 2014, (79 FR 14367, Doc. No. AMS-FV-14-0002, FV14-932-1 IR), § 932.230 was amended by decreasing the assessment rate established for California olives for the 2014 and subsequent fiscal years from \$21.16 to \$15.21 per ton of assessable olives. Income derived from handler assessments plus funds from the carryover reserve will be adequate to cover budgeted expenses.

Final Regulatory Flexibility Analysis

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA) (5 U.S.C. 601-612), the Agricultural Marketing Service (AMS) has considered the economic impact of this rule on small entities. Accordingly, AMS has prepared this final regulatory flexibility analysis.

The purpose of the RFA is to fit regulatory actions to the scale of businesses subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and the rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf.

There are approximately 1,000 producers of California olives in the production area and two handlers subject to regulation under the marketing order. Small agricultural producers are defined by the Small Business Administration as those having annual receipts of less than \$750,000, and small agricultural service firms are defined as those whose annual receipts are less than \$7,000,000 (13 CFR 121.201).

In addition, based on information provided by the industry and the California Agricultural Statistics Service, the average grower price for 2013 was approximately \$1,057.56 per ton of assessable olives, and total grower deliveries were 79,495 tons. Based on production, producer prices, and the total number of California olive producers, the average annual producer revenue is less than \$750,000. In view of the foregoing, the majority of California olive producers may be

classified as small entities. Neither of the two California olive handlers may be classified as small entities.

This rule continues in effect the action that decreased the assessment rate established for the Committee and collected from handlers for the 2014 and subsequent fiscal years from \$21.16 to \$15.21 per ton of assessable olives. The Committee unanimously recommended 2014 expenditures of \$1,262,460. The quantity of assessable California olives for the 2013-14 season is 79,495 tons. However, the quantity of olives actually assessed is expected to be slightly lower because some of the tonnage may be diverted by handlers to exempt outlets on which assessments are not paid. Income derived from the assessment rate of \$15.21 combined with carryover reserve funds should provide assessment income adequate to meet this year's expenses.

This rule continues in effect the action that decreased the assessment obligation imposed on handlers. Assessments are applied uniformly on all handlers, and some of the costs may be passed on to producers. However, decreasing the assessment rate reduces the burden on handlers and may reduce the burden on producers.

In addition, the Committee's meeting was widely publicized throughout the California olive industry, and all interested persons were invited to attend the meeting and participate in Committee deliberations on all issues. Like all Committee meetings, the December 9, 2013, meeting was a public meeting and all entities, both large and small, were able to express views on this issue.

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the order's information collection requirements have been previously approved by the Office of Management and Budget (OMB) and assigned OMB No. 0581-0178, Generic Vegetable Crops. No changes in those requirements as a result of this action are anticipated. Should any changes become necessary, they would be submitted to OMB for approval.

This action imposes no additional reporting or recordkeeping requirements on either of the two California olive handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies.

USDA has not identified any relevant Federal rules that duplicate, overlap, or conflict with this rule.

Comments on the interim rule were required to be received on or before May 13, 2014. No comments were received. Therefore, for reasons given in the interim rule, we are adopting the interim rule as a final rule, without change.

To view the interim rule, go to:

<http://www.regulations.gov/#!documentDetail;D=AMS-FV-14-0002-0001>

This action also affirms information contained in the interim rule concerning Executive Orders 12866, 12988, 13175, and 13563; the Paperwork Reduction Act (44 U.S.C. Chapter 35); and the E-Gov Act (44 U.S.C. 101).

After consideration of all relevant material presented, it is found that finalizing the interim rule, without change, as published in the **Federal Register** (79 FR 14367, March 14, 2014) will tend to effectuate the declared policy of the Act.
